

Hello friends,

Below are selected voter recommendations for your consideration. I consulted many people who I respect for their understanding in the various areas, as well as listening to and talking with the candidates, reading printed materials on the candidates, etc. My concluding recommendations are:

**Secretary of State: Mark Miloscia**

Mr. Miloscia most recently was Executive Director for the Family Policy Institute of Washington (FPIW)--the political arm for Focus on the Family. He did an excellent job but recently resigned to run for Secretary of State. He formerly served in our State Legislature as a "Dem" but had his eyes opened and not only changed to Republican but he became a fearless fighter for what is right!

**Legislative District 7: Lonny Ray Williams**

Lonny Williams has a good understanding of Constitutional issues and our State government. He has a heart for restoring liberty. I personally think Jacquelin Maycumber has lost touch with her constituents and is unresponsive to calls, emails, etc.

**Stevens County Assessor: Rick Johnson**

I am wholeheartedly supporting RICK JOHNSON FOR ASSESSOR. I met Rick and his wife, Viki, over 25 years ago. They both love our County and have been active in it for many years. Rick has an excellent background in both finance and real estate that has prepared him for the position of Assessor.

We need to elect people who do more than just the minimum of "the job description"...we need to elect people who understand the Constitution (which elected officials swear to uphold!!!) and understand liberty and have the heart to work to protect those liberties...in this case, property rights.  
**RICK IS THAT MAN!**

**Stevens County Commissioner District No. 2: Mark Burrows**

Mark Burrows has a good reputation with a proven track record in Stevens County. He is currently serving us well and I hope we will re-elect him.

**Coroner**

I'm not "endorsing" Lorrie Sampson and I'm as unhappy as everyone else that she doesn't show up on scene to more calls. However, there is a lot more to the position... and that is where Ramona Colvin really is not qualified and, frankly put, I don't think she would represent our County well as Coroner.

**Prosecuting Attorney: Nick Force**

Nick Force has the broadest background in all the areas of law that the County Prosecuting Attorney needs to be familiar with. In addition, he has the administrative background required. He is a good man and would continue to serve our County well.

May God have mercy on our community, State and Nation!

*Lisa Shinn*

Blessed is the nation whose God is the Lord! Psalm 33:12  
Choose from among you capable, God-fearing men; men of truth, men who are averse to dishonest gain. Exodus 18:21
